ABOUT THE DEPARTMENTS

Record of the Day's Doings in Territorial Offices.

Governor's Office.
Governor Barnes today signed a regulation for J. W. Washington, who is in jail at Poncah and is wanted in Texas for selling mortgaged property.

District Court.
Judge Burford and court staff, including the wet nurse, have returned from Stillwater. Court lasted two weeks and Judge Burford disposed of over 100 cases. A number of infant cases not on the docket, but which had to be disposed of, were given to Bailiff Orner to look after.

Judge Burford, Clerk Hart, Stenographer Buckner and Bailiff Orner left this morning for Woodward where court convened today.

The bankruptcy case of Washington I. Wigton came up for final discharge today. An objection thereto was filed by Attorney Catterall & Horner for the Spencer Hardware company, who were given ten days in which to file specifications to the objection.

Marshal's Office.

United States Marshal C. H. Thompson is out of the city.
Deputy Marshal Ned Sisson is in Perry attending the murder trial of Chas. Baker, a half breed Ojawa who is charged with killing a white man on the reservation.

Geo. English and L. F. Bremer were released from jail yesterday on habeas corpus proceedings. The pair was charged with making lead discs to be used in beating slot machines and were arrested at Oklahoma City about three months ago.

Fire Department.

At 3:30 o'clock this afternoon the fire department made a run to the corner of Broad and Lincoln, where a small barn was burning, which could not be saved owing to its being beyond the fire limits.

Probate Court.

The case of Carpenter vs. McKeand, concerning the Guthrie steam laundry property, was continued.

Frank Lewis and Will Whitmore are being tried today for stealing a horse, buggy and harness from J. L. Hagan house. It looks as though they would be bound over.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation is removed, and the tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. J. C. HENNEY & CO., Toledo, O. Sold by druggists, 75 cents.

Notice to Customers.

Mr. W. H. Morse, the jeweler, has been seriously sick with heart troubles the past week. Consequently he asks the indulgence of his friends and customers who have watches or other valuables in his care and would also inform them that they are all securely locked in his safe. Dr. Vandervoort, his physician, says that he is improving and will soon be able to attend to the wants of his many customers.

Work on the South Side temple will be begun June 1.

GRADUATES ENTERTAINED.

Superintendent and Mrs. J. R. Campbell Do Honor to Class of '99.

The graduating class of '99 was really entertained last night by Superintendent and Mrs. J. R. Campbell at their residence on North Broad street. The program consisted of a novel and entertaining guessing contest. Prof. Campbell feels justly proud of this class of '99 and well he may, for it is the largest in the history of the Guthrie schools. Prof. G. W. Stevens, principal of the high school, and Miss Etta Hikes, assistant, who labored with the class of '99, were present to lend their assistance in making the evening's entertainment a success. Refreshments were served. The following were present: Laura Edith Brewer, Cora Olive Hinchliff, Lena Ethel Hunter, Roxana Hinchliff, Ella Carrier, Lulu McBride, Robert E. McBride, Ethel Mary McNeal, Winifred Oldham, Eva Marguerite Swan, Stella Weymouth, Miss Etta Hikes, Miss Kate Denton, of Winfield, and Prof. and Mrs. G. W. Stevens.

The Effects of the Grip are overcome by Hood's Sarsaparilla, which purifies the blood, tones the stomach, strengthens the nerves, and makes the whole system vigorous and healthy.

A vegetable cathartic that can be relied upon to do its work thoroughly—Hood's Pile.

MONDAY HIGH FIVE

Met in the District Court Room Last Night.

The regular session of the Monday High Five Club was held in the district court room last night, and was one of the most pleasant sessions of the club's existence. Mrs. W. S. Spencer won the ladies' prize and Mr. A. A. Humphrey the gentlemen's prize. Mrs. John H. Burford and Mrs. T. A. Neal furnished the delicious refreshments. The following were present: Messrs. A. M. Jones, J. W. McNeal, L. B. Levy, F. S. Hardin, O. R. Hagan, A. A. Humphrey, T. A. Neal, J. H. Burford, J. H. Havighorst, H. H. Hagan, E. O. Barker, C. A. Ellison, W. S. Spencer, Mrs. A. P. Saunders, Mrs. S. K. Van Voorhees, Mrs. George E. Hillingsley, Mrs. J. E. Nippes of Phillipsburg, Kas., and Dr. C. Petty.

Notice—Special Call.

To O. P. Cooper, Chris Johnson and J. J. Eatus, commissioners in and for Logan county, Oklahoma territory: You are hereby notified that the interest of the county demands a special session of your board to be held for the purpose of completing the unfinished business of your last regular session, and consider other matters demanding your attention, and such other business as may come properly before you. I therefore, as provided by law, call a special session of your board to meet at my office on May 27, 1899.

R. P. MORRIS,
County Clerk.

Notice to Woodmen.

You are requested to be present to-night, as the building committee will make a report and there will be other important business.

J. B. TOWERS, Clerk.

Nothing has ever been produced to equal or compare with Tabler's Buckeye Pile Ointment as a cure for hemorrhoids, itching, external or internal, and itching and bleeding of the rectum. The relief is immediate and cure infallible. Price 50 cents in bottles, tubes 75 cents. Sold by F. B. Lillie & Co. and Wheeler & Son.

ATTENTION!

ARTISTS' UNION,
303 Main St. Dallas, Texas.

WHITE ROASTS FOUCART.

Contractor of Noble Avenue Bridge, Tells of His Work and Censures the City Engineer.

Editor Lender.—Permit me through the columns of your paper to make a reply to a somewhat garbled report of the city engineer on the construction of the masonry for the Noble avenue bridge, which appeared in your issue of the 20th inst.

While I regret as much as any citizen of this city that any damage from any cause should occur to the work on that bridge, I must, in justice to myself, say that had the same amount of judgment been used in making the embankment fill of some eighteen feet high, of loose dirt back of the abutment and wing walls of that bridge that there would be no cause for any alarm for the safety of the structure, and let me say now, that in my opinion, and the opinions of other men as good citizens as this city contains, there is no practical damage done to the work up to this time, notwithstanding the blundering and reckless manner the great mass of dirt was piled against the masonry, and to make all things worse, I am informed that a stream of water from a hydrant through a three-inch hose was kept running on the fill as a means of making it settle rapidly, which would make the pressure be much greater than if it had been put in and wellamped back of the work for any six feet, keeping the fill next to the walls all the time the highest, but no; filling it with water was the cheapest and the best way to have the result.

Now for the anchorage system that was planned by the superintendent for the protection of the wing walls. Where the fill would be made, holes were left at several places, intending to use about a three-eighth inch wire cable, secured by proper plates on the outside of the walls all fastened to a center post between the wings. As it is now done it shows a great lack of knowledge as to the use it was intended to serve. A look at the outer ends which is all one can see, it will be seen that a few strands of small wire is wrapped around a stick of stove wood on the outside of the wing walls to form the base of anchorage system and the wire has already cut some of the stove wood in two, leaving practically no anchorage.

Now in regard to the mortar used in the construction, and workmanship of the mechanics who performed the work on those abutments, I will say that every yard of sand used in the Omarron river was equally good with that used in the construction of all buildings, and that the mechanics who performed the work are not second in point of skill to any in the territory, the city engineer to the contrary, notwithstanding.

I would not bother you with so lengthy an article were it not for the fact that I wish to get the matter fairly before the people in its true light.

I will have to say a little more for our conscientious engineer. There is always a starting point for everything and I wish to tell the people where this matter started. It may not be generally known that the present engineer some time in December last made a set of plans and specifications for the work on Perkins avenue and that it was sought by the mayor and council to let the work on those plans, but they failed to do so and as a matter of fact entirely discarded his plans and adopted plans changed by county surveyor White in lieu thereof, and let the work on the plans of White. Those plans and specifications made by Mr. White were seen by anyone calling at the office of the city clerk, and in those plans will be found a description of the work to be erected and which is as follows as near as I can call to mind: The work to be of heavy rubble stone, called ironstone, which is a heavy stone, throughout the work. And now I will say that all the different materials used in that work were and are of a good quality, and that the work as a whole is superior to that described in the plans and specifications.

And I must say that I feel some what hopeful as Mr. Engineer has discovered that he has a conscience. As an instance of his conscientious scruples I recall a little matter that came under my personal observation a couple of years ago. I had on hand one of the best pieces of work that had considerable plastering in it which he seemed very anxious that I should let to certain parties. Those parties failed when I let the work to be the successful bidders and the result was that they did not get the work. The party to whom I let the work commenced at once to haul his sand and got three or four loads on the ground when this conscientious engineer came out with his magnifying glass and condemned the sand as unfit for use. It was immediately removed from the premises and the sand hauler instructed to go back and haul for the very best sand to be had at the river, which he did and this honest engineer came again with his glass and condemned it. The plasterer gave up in despair, threw the contract to me and told me I must get someone else to do the work, as he could not procure the sand that would be accepted. All those loads of sand were hauled to the Baptist church in this city and used for plastering, where I, through made of rejected sand.

But that is not all the conscientious dealing in that work. I sent the same teams back to the river for two more loads, and in the meantime gave the contract for my plastering to the parties whom this conscientious gentleman wished to have it, and in due time the two loads of sand arrived and were put through the same glass process as the others, but behold it was found to be all right, notwithstanding the fact that it was taken from the same pit by the same man, but not for the same plasterer. I only refer to this to show how conscientiously honest our engineer is.

Last winter, when the award for this work was made to me, knowing that Mr. Foucart's plans had been discarded, I refused to contract for the work unless I could have the assurance that he would not be appointed superintendent of the work. This assurance was given me, but two months after my work was completed he was appointed, not to superintend, but to get a chance to wreak vengeance by condemning better work than would have been done on his own plans.

I will say to my fellow citizens of this city that I came here with no desire to best any body, but with an honest desire to succeed in my line of business, and with many thanks to those who have entrusted their work to me, I think I have given satisfaction in every case. I repeat that I be-
